ACHIEVEMENTS

2019 HeforShe Writing Contest
Finalist [Read my piece here](#)

EXPERIENCE

MATLAB Specialist

Inspire Resources Inc. (Fall 2021)

- Built tools using MATLAB to support the development of IP and process industry data
- Built an app that computes coordinates of 3D block models using App Designer
- Implemented MATLAB features to analyze and output economic modeling data to excel sheets.
- Taught colleagues to use Git tools and Azure DevOps

Online Learning Assistant

University of Waterloo Department of Civil and Environmental Engineering (Winter 2021)

- Compiled and edited 70 hours of lecture videos
- Transcribed and annotated subtitles with 99% accuracy using DaVinci Resolve
- Developed and iterated conceptual teaching models for theoretic accuracy, and user-friendliness
- Collaborated with professors and teaching assistants on a weekly basis to deliver a high-quality education experience
- Scheduled content releases and managed learning resource portal

STUDENT LEADERSHIP

- Secretary of UW Civil Environmental Architectural Geological Engineering Society (CEAGES)
- University of Waterloo Fencing Club

PROJECTS

University of El Dorado

Bachelor of Science in Anthropology, June 2014

San Dias High School

Graduated Class of 2010, Honor Roll
